Stock Letters.

James A. Pollock & Co., bankers and brokers, 6 West Second South street, furnish the following, received over their private wire yesterday afternoon:

Dick Bros. Stock Letter—New York—Stocks were very feverish and irregular today, but efforts to bring about weakness were unsuccessful and the market always showed a firm undertone, although it did not hold its railies. Special buying of special stocks continue to characterize the market. C. & O. made another new record today. Wisconsin Central, Denver & Rio Grande and Missouri Pacific showed the influence of persistent buying. The profits for the speculator are in such stocks as these, rather than in the old leaders, which will repeally continue. showed the influence of persistent onlying. The profits for the speculator are in such stocks as these, rather than in the old leaders, which will probably continue irregular. Norfolk should be watched. It is sluggish around \$2, but it will look very attractive at \$6. Do not lose sight of Rock Island issues. Take advantage of recessions to buy these stocks.

Hutton & Co. Stock Letter—New York—Much was made in Wall street of the departure today of the leading financiers on vacations. Holders were inclined to take profits and selling became a pastime, creating a highly irregular market. It might be remembared that many buil markets have started with important men in the financial world away from this center. Full protection will be given the leading issues even though no sustained upward move may occur at the moment. We look for a specialty market.

Peaches are somewhat unsettled, with holders on the coast asking higher prices than buyers are disposed to pay, apparently, while there is said to be some pressure to sell on the local market by second hands. Choice are quoted at \$1,40,75c; extra choice, \$1,40,8c; fancy, \$4,610c.

Raisins are quiet, with musicatals quoted at \$4,60,5c; choice to fancy seeded, \$2,60,5c; theolegy of \$1,50.

Cotton Letters.

James A. Pollock & Co. bankers and brokers, 6 West Second South street, furnish the following, received over their private wire vesterday afternoon.

Logan & Bryan Cotton Letter, New York—A rather unantisfactory set of Liverpool cables brought an easier American market around the opening, and during the day some further selling pressure developed on the rumors of rains in Texas, where the drouth has been long continued and has somewhat of a sustaining influence on the market. In addition to this, it looks as if the week-ensifigures, to be issued tomorrow, might also be disappointing to the buils, who had expected receipts to show a let up, which they have not done, as the indicated amount in sight looks like about 350,000, against 323,000 for the same week in 1907. The market is not however, a very vulnerable one, and no serious seiback is expected, as a great many people have been waiting for a good break on which to buy cotton, and those who have a legitimate interest in the market are the strongest people in the trade and better equipped to merchandise their wares. A further temporary sethack may be looked for, especially if the rains in Texas become general, where they are much needed.

Dick Bros. Cotton Letter, New York—Cotton was again very duil, with the situation indicating more or less of a deadlock between the contending factions. Bears are afraid to sell, owing to the fear of manipulation of neur months, and the short interest in the market is relatively very small. Most of the short interests in old crop months represent rales against cotton exported abroad and not yet sold to spinners. While this may amount to 1,000,000 bales, it will not be covered until the cotton has been sold to spinners, who show no particular anxiety to take it. In the late afternoon the market weakened somewhat on reports of rain in Texas. The buils have been using the boil weevil and drouth, among other things, to bring about an advance. Southern spot markets were barely steady and unchanged and a shade low

London Wool.

LONDON. Feb. 1.—A good assortment was offered at the wool sales today, and the competition was more active, with prices showing the best of the series the recent irregularity having disappeared. The home trade and the continental buyers sought eagerly all medium merine greasy wool offered. Americans secured good crossbreds after strong competition with the home trade. BUSINESS AGAIN DULL ON PRODUCE MARKET

Is Responsible for the Situation.

Owing to the inclement weather, business was very weak on the local produce market Thursday. The storm compelled the dealers to keep their displays indoors, thus making the stands look pretty barren. Nevertheless they offered for sale a fairly good grade of catables. No now shipments were received in the city and quotations continued very steady. Today dealers are expecting a supply of pineapples from the Hawailan Islands. Pineapples have been very scarce all winter and prices have been high, and the shipment will be welcomed, not only by the dealers, but also by the Salt Lake housewives. rade in the wheat pit was the active buying by a leading elevator interest during the first hour of the day. The demand brought out free covering by shorts, which caused prices to advance to the highest point reached since the first part of December, when the May delivery touched \$1.11. The high point today was recorded at \$1.10\footnote{1}. During the last half of the day there seemed to be considerable inclination on the part of the leading longs to take profits, and this caused an easier feeling. News of the day was again of a bullish character. Cables were strong, cash demand in this country was again brisk heavy sales of flour were reported at Minneapolis, and a cablegram from Rosarlo claimed that the Argentine crop of wheat had been greatly overestimated. One of the leading local miliers reported sales of flour yesterdsy to points in Louislana, North Carolina and West Virginia, which is all territory for this market. After ranging between \$1.09\footnote{1} and \$1.10\footnote{2}, the May delivery closed at \$1.09\footnote{4} Final quotations on July were at \$9\footnote{4}\footnote{2} \text{sign} in wheat created moderate firmness in the corn market early in the day, but later an easiler tone developed.

Housewives are still complaining about the high price of creamery butter. The product continues at 33 cents a pound wholesale, and 40 cents a pound retail, and there is no indication that there will very soon be any reduction. Fresh eggs are still scarce and the price continues at 59 cents a dozen.

Kansas City.

The bulge in wheat created moderate firmness in the corn market early in the day, but later an easier tone developed. Cash houses were leading seliers during the last half of the day. A decline of it in the price of cash grain had a tendency to weaken options, as did also the continued absence of any expert demand. The market closed easy with prices is to it is closed at 63 and July at 83 c.

Trade in the oats pit was extremely light all day and the market weak the entire session. A slack demand from the eastern shippers was largely responsible for the weakness, although talk of Argentine oats being imported to this country had some effect. At the close prices were a shade to idite lower, with May at 52c and July at 46 646.

Profit-taking sales by the leading longs and some selling by local packers caused weakness in provisions throughout the greater part of the day. At the close prices were 5 % 74c higher to 15 6 17 c lower. Kansas City.

This may seem a broad assertion, but it is just as substantial as it is broad. KIDNEY AND URINARY DISEASES

Such as enlarged Prostate, Cystitis, or Inflammation of the Bladder, with resultant kidney affections, drains and losses, receive most skillful expert treatment, and a perfect and permanent cure is guaranteed in every case taken. The necessity of this Department, where unfortunate sufferers may come with the assurance of honest dealings and expert treatment—is made plain by the presence in the city of various "Fake Medical Companies" and "Quack Institutes," where cheap hired Doctors and ignorant quacks endanger the health and rob the afflicted for worthless and often dangerous treatment.

For 17 years Drs. Shores have been known as STRICTLY RELIABLE SPECIALISTS. They do business under their own names, and offer you their Expert services on practically your own terms—either small weekly or monthly payments as the cure progresses or you can arrange to PAY WHEN CURED.
